RE: TPH Soil Vapor Sampling Work Plan

Dear Ms. Bruss:

This letter is in response to your June 15, 2005, comments on the Boeing TPH Soil Vapor Sampling Plan. We have no issues with the comments and will revise the work plan accordingly. However, due to revisions that may be required to the previously submitted Risk Based Corrective Action Report, we request that submittal of a revised soil vapor work plan be delayed until after we receive your comments to that report. As discussed during our meeting on June 27, 2005, changes to the RCRA MRBCA guidance will require us to revise the risk assessment calculations. The results of the revised risk assessment may change the scope of the soil vapor work plan.

Please contact me if you have any questions.

Sincerely,

Joseph W. Haake, Group Manager  
Environmental and Hazardous Materials Services
